# Problems

Graduates of Innopolis University currently lack a unified portal where they can find everything they need. Many universities in Russia and abroad already have dedicated websites for their alumni. Our task was to first understand what our graduates want and need from such a site, and then develop a similar platform to meet those needs.

## Problem 01

**Alumni are not connected between each other**

## Problem 02

**Alumni are not connected with Students**

## Problem 03

**Alumni do not engage with the University**
