Custom alias (optional):

Our solution

Our very own URL shortening service with as many as possible features that users may need

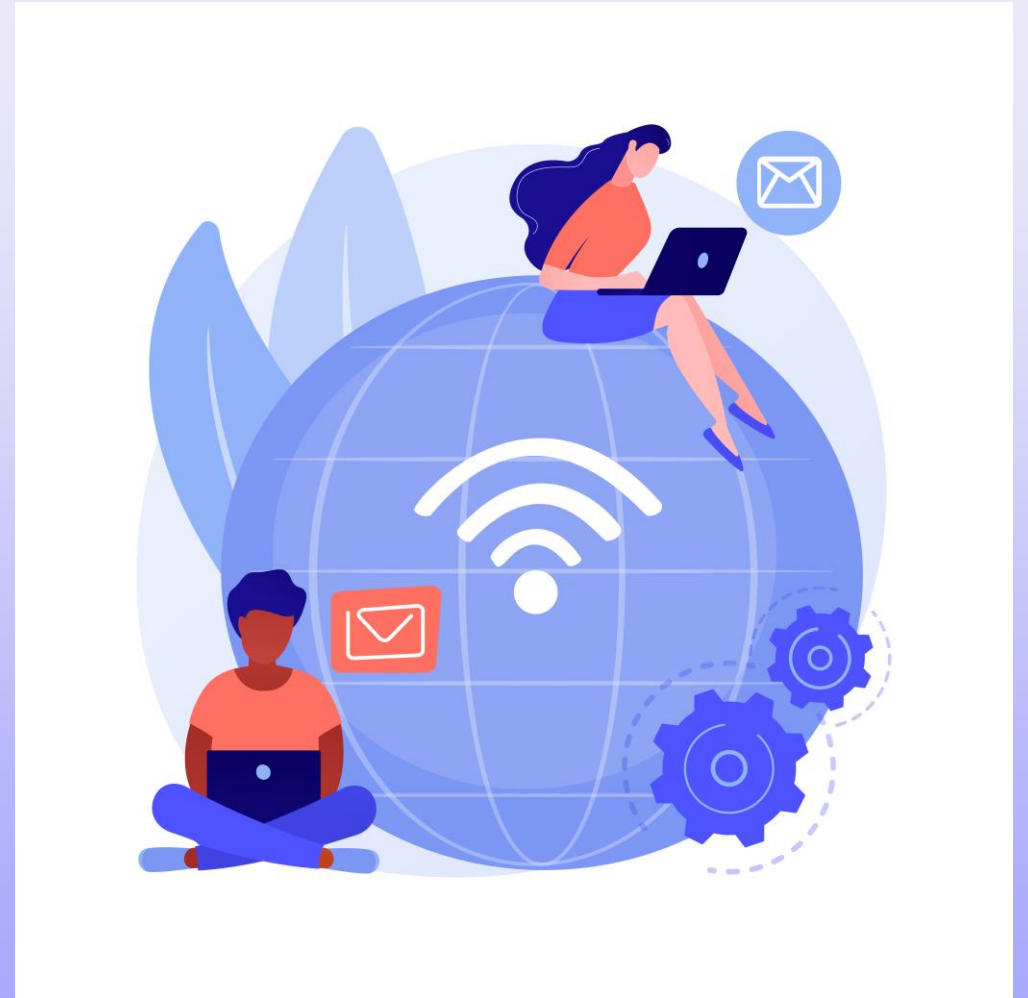

The screenshot shows the LinkLink In web interface. At the top left is the logo "LinkLink In" and at the top right are icons for light/dark mode, a toggle switch, and a help icon. The main content area features a central heading: "Convert your links into shrimps. Easy and fast 🍤". Below this is a text input field containing "https://example.com/some-very-long-link..." and a blue "Generate Link" button. A settings panel below the input field includes several options: "Time limit" (checked, with a date picker set to "June 14, 2024"), "Visits limit" (checked, with a numeric input set to "100"), "Password" (unchecked, with a password input field), "Collect statistics" (unchecked, with a sub-note: "Login into your account to collect statistics and info about visitors."), "Custom link" (unchecked, with a text input field containing ".anjackich" and a "Pro" badge), and "Custom banner" (unchecked, with a "Pro" badge). An "Upload banner" button is present next to the text "No file uploaded".

Target users

Any people or companies on the internet that may need to shorten links

- Businesses
- Content creators
- Influencers
- Bloggers

LinkLink In features

- URL shortening
