TECHNICAL STACK

THE USE OF ARTIFICIAL INTELLIGENCE

Al feedback summary

After the game, administrators receive a concise summary of player feedback, highlighting the game's strengths and areas for improvement.

This helps in drawing conclusions about the current game and identifying opportunities for future enhancements.

Hide and Seek

Players' impression of the game:

Based on the feedbacks, here is a summary:

Likes:

* The game was "cool" and "perfect time to catch the man" (Score: 4) * Players enjoyed the thrill of the game, mentioning it was "scary" because there was a risk of not having enough time to catch the hider.

Dislikes:

* The game was too short, with one player requesting "more time" (Score: 3)
